ZOOM

Results from the 2024 NAEP Reading Assessment are dire. Instead of making up lost ground after the pandemic, student scores continue to slide. Most alarmingly, the achievement gap continues to widen. In this webinar, Carol Jago will outline the latest news from the Nation's Report Card and offer a way forward. She will demonstrate methods for increasing reading skill while stimulating students' desire to read. A rigorous curriculum can be a joyful one. You will come away with techniques, tools, and texts that can turn the tide.
